Chairman's Statement

Dear Shareholders,

2008 has been an extraordinary year for China. In spite of a series of natural disasters including snowstorms, earthquake and floods, China's economy has managed to sustain steady growth. During the first half of 2008, the Government made an announcement defining the direction of the reform of the telecommunications industry. Leveraging our competitive advantages, through effective management and united effort, the Group overcame a variety of challenges to record a healthy business performance — remarkable financial results and favorable profitability all continued to contribute to improved shareholder value.

In August 2008, the world watched as the Beijing Olympics was held successfully, and China had fulfilled her commitment to the world. As the mobile telecommunications services partner for the Beijing Olympics, the Group was proud to have played its role, doing an outstanding job in ensuring successful communication services.

Financial Results

For the six months ended 30 June 2008, the Group's operating revenue continued to grow, reaching RMB196,460 million, representing an increase of 17.9 per cent. over the same period of last year. Profitability was significantly enhanced, and profit attributable to shareholders reached RMB54,849 million — an increase of 44.7 per cent. over the same period of last year due partly to change in PRC enterprise income tax rate. Margin of profit attributable to shareholders reached 27.9 per cent.

EBITDA reached RMB104,361 million, representing an increase of 16.2 per cent. over the same period of last year while basic earnings per share reached RMB2.74, an increase of 44.2 per cent. over the same period of last year. Our Group's value-added business revenue continued to enjoy satisfactory growth, reaching RMB52,996 million, representing an increase of 26.4 per cent. The income from value-added business contributed 27.0 per cent. of the total operating revenue — an increase of 1.3 percentage points over the previous year.

The Group's current sound capital structure and financial strength provide a solid foundation for sustainable future development.

Chairman's Statement (Continued)

Business Developments

In the first half of 2008, the Group did its best when it came to dealing with the Sichuan earthquake and subsequent disaster relief. In the meantime, management and business development efforts showed good prospects, and operational results remained robust.

The Group enjoyed continued rapid growth in its subscriber base, value-added business and voice usage volume. The net increase of new subscribers per month topped 7.5 million, taking total subscriber number to 415 million. Our value-added business grew strongly, continuing to increase its contribution to overall revenue. After the gradual changes to the tariff structure and the roaming tariff scheme, our operating revenue sustained steady growth. For the six months ended 30 June 2008, the Group's total voice usage volume reached 1,160.474 billion minutes and the average minutes of usage (MOU) was 496 minutes. Average revenue per user per month (ARPU) was RMB84.

In the first half of 2008, the Group followed a "lower ARPU, lower MOU, lower cost" strategy to target the unique requirements of customers in rural areas. We also lowered the subscription threshold as well as the operation costs, implementing a national sales program with united theme in cities and villages. In addition we also expanded the business content of the "Agricultural Information Service", further extending our rural market. Leveraging our advantages we have consolidated our leading position in the rural market, which continued to contribute significantly to developing the Group's subscriber base and growing revenue.

Our value-added business enjoyed strong revenue growth and accounted for 27.0 per cent. of the Group's total operating revenue.

The mobile music business flourished, with membership of the wireless music club reaching 80.83 million as at 30 June 2008. Our "Mobile Paper" news and information business also developed rapidly, with the number of paying subscribers growing to over 40.24 million. It is clear that the mobile phone is becoming a vibrant form of media, and drive for rapid revenue growth.

Our "Fetion" instant messaging service has captured 111.81 million subscribers and jumped to 3rd place in Mainland China's Instant Messaging market. At the same time, the Group continued to strengthen product development, creating a variety of products such as the 12580 Integrated Information Service, 139 Mailbox, Mobile Games to name just a few to enhance the multi-functionality of the mobile phone. A solid value-added business product development structure is now in place to provide an engine for future business growth.

The Group has also further explored the corporate customer market. In the first half of 2008, we enhanced our corporate customer development and further improved corporate customer relations to increase customer loyalty.

We also actively promoted industry specific application solutions to increase the informatization application coverage of major industry sectors including agriculture, education and commerce. With the Government's strong focus on the development of e-commerce and informatization for SMEs, we offered custom-made solutions for different enterprises and brought mobile informatization into their production and management processes. As of 30 June 2008, our corporate customer base had reached 2.39 million companies and provided a solid foundation for full-service telecommunications market in the future.

We are the world's No. 1 mobile telecommunications operator in terms of network scale and subscriber base. In the first half of 2008, our network capability was further enhanced through a steady network upgrade as well as further development of centralized network operations and maintenance. We maintained our world class network quality with wireless connection rate remaining at 99.2 per cent.

Our international roaming services have continued to expand. As of 30 June 2008, we offered GSM roaming services through 370 operators in 237 countries and regions and GPRS roaming services in 168 countries and regions around the world.

Earthquake recovery efforts

The Sichuan Earthquake not only shocked the world, but also caused the most extensive damage ever to our base stations and network equipment. At the worst time, 4,457 base stations were out of service, the out of services rate in the worst affected province was 20 per cent.. In the race to save lives and provide assistance, we put every effort into ensuring that communications were back on line in the shortest possible time.

Chairman's Statement (Continued)

Immediately after the earthquake struck, the Group set up a special Earthquake Recovery and Disaster Relief Committee and executed the highest level emergency communication plan. The management immediately went to the front lines to organize and lead the recovery. As well as the centralized allocation of equipment and staff, we optimized the overall network circuit and traffic flow, ensuring that communication between key areas remained stable. We also went to extremes, building 25 emergency base stations with airborne equipment — a historic first to quickly provide wide area communication for the affected regions and greatly contributing to the success of the first phase of earthquake recovery and disaster relief efforts.

While sustaining uninterrupted operation, we provided a free hotline service — "Safe and Well Messages" — to help people trace relatives as well as offering psychological counseling. At the same time we helped the Government distribute disaster information. The network has resumed to normal. While the human cost of the earthquake cannot be understated, the earthquake tested the Group's ability to handle extremely difficult emergencies and provided valuable experience for global disaster relief communication.

Taking into consideration the Government's overall disaster recovery development initiatives, as well as considerations for telecommunications network safety, advancements and environmental protection, we formulated the China Mobile Reconstruction Plan for meeting telecommunications needs in the affected area.

Serving the Olympics

In August 2008, the eyes of the world were on the Beijing Olympics. As the sole mobile telecommunications services partner for the Beijing Olympics, we completed the network construction for Olympic venues and hot spots in time. We also carried out testing of roaming terminals and basic business of 384 overseas operators in all the Olympic cities, and greatly reinforced the quality of international business services.

We helped the Beijing Organizing Committee to build the handset version of the official Olympic website, and provided various Olympic products such as Immediate Photo Transmission and Wireless Info. We also offered other special Olympic products to our customers including Olympic Mobile TV, Olympic Mobile Paper and Olympic Mobile Music.

During the Olympics, our superior network quality, comprehensive network coverage and service choices enjoyed excellent market reception. Especially on the night of the opening ceremony, with world-class telecommunication quality, we not only met the tremendous telecommunications demands in the National Stadium, but also set a record of ensuring voice communication at the peak call traffic volume of 110,000 voice calls per hour.

Success in serving the Olympics is not only the fulfillment of our corporate commitment, but also, it improved our business and service levels, and greatly enhanced China Mobile's brand value.

Management of the Company

We are convinced that refined and effective management can lead to strong operational performance, so we have been continuing our efforts in improving our management. In 2008, we made further improvement on our "One China Mobile" project, in order to strengthen the management of our subsidiaries, improve our management efficiency and execution ability through a standardized and centralized management system. At the same time, to enhance corporate governance, the Company improved the internal control and risk management systems. These enhanced standardized internal control systems ensure that the Company's internal control policies are more effective.

In 2008, our achievements continued to be widely recognized. The Company's ranking in the "FT Global 500" by the *Financial Times* has jumped from 16th last year to 5th place this year. Our ranking in *Forbes* magazine's "Global 2000" list also rose to 78th place from 89th. We made the *BusinessWeek's* "Info Tech 100" companies list for the seventh year in a row, rising to 7th place from 10th last year. The China Mobile brand was also included in the Millward Brown and *Financial Times'* "BRANDZTM Top 100" for the third consecutive year and currently ranks the 5th. On 31 July 2008, Standard & Poor's upgraded our ratings to A+/Outlook Stable.

Dividends

China Mobile holds the interests and the return on investment for its shareholders — particularly its minority shareholders — in the highest regard. After reviewing the favorable operating results for the first half of 2008, our long-term development plans, as well as the 43 per cent. dividend payout plan for the full year of 2008, the Board has recommended the payment of an interim dividend of HK\$1.339 per share for the six months ended 30 June 2008.

The Board is convinced that the Company's strong operational performance and cash flow are capable of supporting our future growth, while also providing shareholders with a favorable cash return. To that end the Company will continue its efforts to steadily increase dividend yield in the long term in order to generate the best possible returns for shareholders.

Appointment of Director

With the approval of the Nomination Committee and the Board, Mr. Zhang Chunjiang was appointed as the Company's Vice Chairman and Executive Director on 5 June 2008. Mr. Zhang has extensive management experience and valuable professional expertise. We strongly believe that Mr. Zhang Chunjiang will bring great benefit to the Company and on behalf of the Company and the Board, I welcome Mr. Zhang Chunjiang on joining us.

Restructuring of the Telecommunications Industry

On 24 May 2008, the Ministry of Industry and Information Technology, the National Development and Reform Commission and the Ministry of Finance jointly issued the Announcement on Deepening the Reform of the Structure of the Telecommunications Sector relating to the further reform of the telecommunications industry in Mainland China. The announcement defines the direction of the reform of telecommunications industry in China, provides the guideline of changes in competitive landscape, as well as actively promotes homegrown telecommunication technology innovation.

The Company believes that such reform will benefit the optimization of current telecommunication network resources and the implementation of full-service operations. It will also foster appropriate and healthy market competition. At the same time, as the domestic economy continues to develop, the demand for telecommunications and information services will continue to increase. This will create tremendous potential for China's telecommunications market, which in turn, offers tremendous opportunity for different telecommunications operators. The Government's active promotion of homegrown innovation will also drive the operators innovation capability and overall competitiveness.

Looking to the Future

The combination of economic growth in China, rising consumer purchasing power, the continuous development of the rural economy and the acceleration of informatization throughout the country is driving a tremendous demand for telecommunications and information services. This, in turn, is creating a huge market for us.

As industry reform deepens, with the completion of the restructuring and the introduction of full-service operations, changes in the competitive landscape will take place.

To meet new opportunities associated with new challenges, in the second half of 2008, we will leverage our strong foundation and overall competitiveness, as well as optimizing and continuing our current competitive edge in the mobile telecommunications market. We will maintain positive business development and financial growth and adapt rapidly to changes in the operational and competitive environment, readying ourselves for full-service operation. At the same time, we will focus on innovations. This includes assisting our parent company in the construction of TD-SCDMA network, in which current network resources will be fully utilized, and merging the 2G network into the 3G network in preparation for the full introduction of 3G operations. We will also closely monitor the development of TD-LTE network technology to ensure momentum for future development.

In addition the Company will actively search for quality overseas telecommunications assets as investment opportunities and as a way to explore international development.

However, fundamentally our focus remains unchanged — to maintain a solid, long-term business foundation with the goal of creating best possible return for our investors.

Wang Jianzhou Chairman and Chief Executive Officer

Notes to the Unaudited Interim Financial Report

(Expressed in Renminbi unless otherwise indicated)

1. Basis of preparation

The interim financial report of China Mobile Limited (the "Company") and its subsidiaries (collectively known as the "Group") has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Hong Kong Listing Rules"), including compliance with International Accounting Standard ("IAS") 34, Interim financial reporting, issued by the International Accounting Standards Board ("IASB") and Hong Kong Accounting Standard ("HKAS") 34, Interim financial reporting, issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). It was authorized for issuance on 27 August 2008.

The preparation of an interim financial report in conformity with IAS/HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year-to-date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2007 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs") or Hong Kong Financial Reporting Standards ("HKFRSs").

This interim financial report is unaudited, but has been reviewed by the Company's Audit Committee and the Company's auditors, KPMG, in accordance with Hong Kong Standard on Review Engagements 2410, Review of interim financial information performed by the independent auditor of the entity, issued by the HKICPA. KPMG's unmodified independent review report to the board of directors is included on page 24 of this interim report.

The financial information relating to the financial year ended 31 December 2007 that is included in the interim financial report as being previously reported information does not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2007 are available from the Company's registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 19 March 2008.

2. Significant accounting policies

The IASB has issued a number of new or revised IFRSs, which term collectively includes IASs and Interpretations, that are first effective or available for early adoption for accounting periods beginning on or after 1 January 2008. The equivalent new or revised HKFRSs, which term collectively includes HKASs and Interpretations, consequently issued by HKICPA as a result of these developments have the same effective date as those issued by the IASB and are in all material respects identical to the pronouncements issued by the IASB. There have been no other material changes to HKFRSs.

These developments have not resulted in any significant changes to the accounting policies adopted by the Group. Consequently, the interim financial report has been prepared in accordance with the same accounting policies adopted in the 2007 annual financial statements.

Subsequent to the date of this interim financial report it is possible that the IASB and/or the HKICPA will announce new or revised IFRSs or HKFRSs that will be first effective, or will be available for voluntary early adoption, in the annual financial statements for the year ending 31 December 2008. Therefore the policies that will be applied in the Group's financial statements for that period cannot be determined with certainty at the date of issuance of this interim financial report.

(Expressed in Renminbi unless otherwise indicated)

3. Segment reporting

No analysis of the Group's turnover and contribution to profit from operations by geographical segment or business segment has been presented as the majority of the Group's operating activities are carried out in Mainland China and less than 10 per cent. of the Group's turnover and contribution to profit from operations were derived from activities outside Mainland China or outside the Group's mobile telecommunications and related services activities. There is no other geographical or business segment with segment assets equal to or greater than 10 per cent. of the Group's total assets.

4. Turnover

Turnover represents usage fees, monthly fees, value-added services fees and other operating revenue derived from the Group's mobile telecommunications networks, net of PRC business tax. Business tax is charged at approximately 3 per cent. of the corresponding revenue generated from the services rendered in the Mainland China. No business tax is charged on the revenue generated from the Group's mobile telecommunications and related services in Hong Kong.

Value-added services fees are mainly derived from voice value-added services, short message services ("SMS") and non-SMS data services.

Other operating revenue mainly represents interconnection revenue.

5. Profit before taxation

Profit before taxation is arrived at after charging:

	Six months er 2008 RMB million	n ded 30 June 2007 RMB million

- (i) On 26 June 2008, the Hong Kong profits tax rate was enacted to reduce from 17.5 per cent. to 16.5 per cent. with effect from the year of assessment 2008/09. In accordance with the new tax rate, the provision for Hong Kong profits tax for the six months ended 30 June 2008 is calculated at 16.5 per cent. (2007: 17.5 per cent.) of the estimated assessable profits for the period.
- (ii) The provision for the PRC enterprise income tax is based on a statutory rate of 25 per cent. (2007: 33 per cent.) of the taxable profits determined in accordance with the relevant income tax rules and regulations of the PRC for the six months ended 30 June 2008, except for certain subsidiaries of the Company or certain operations of the subsidiaries located within special economic zones in the PRC, which were previously taxed at preferential rate of 15 per cent. in 2007, for which the applicable preferential tax rate is 18 per cent. for 2008 and will be increased to 20 per cent., 22 per cent., 24 per cent. and 25 per cent. for the years ending 31 December 2009, 2010, 2011 and 2012, respectively. Accordingly, the deferred tax of the Group is recognized based on tax rates that are expected to apply to the period when the asset is realized or the liability is settled.

(b) Transactions with other state-controled entities in the PRC

Apart from transactions with the CMCC Group (see note 17(a)), the Group, a state-controled enterprise, conducts certain business activities with enterprises directly or indirectly owned or controled by the PRC government and governmental authorities and agencies (collectively referred to as "state-controled entities") in the ordinary course of business. These transactions primarily include rendering and receiving services, sales and purchase of goods and deposits with financial institutions, are carried out at terms similar to those that would be entered into with non-state-controled entities and have been reflected in the financial statements.

As part of the transactions with state-controled entities as mentioned above, the Group has material transactions with other state-controled telecommunications operators in the PRC in the normal course of providing telecommunications services. These transactions are conducted and settled in accordance with rules and regulations stipulated by the Ministry of Industry and Information Technology (formerly Ministry of Information Industry) of the PRC government. Additionally, the Group has material transactions and balances with state-controled financial institutions.

Set out below are the principal transactions and balances with state-controled telecommunications operators and state-controled financial institutions in the PRC:

19. Post balance sheet events

After the balance sheet date the directors declared an ordinary interim dividend. Further details are disclosed in note 7(a).

20. Possible impact of amendments, new standards and interpretations issued but not yet effective for the annual accounting period ending 31 December 2008

Up to the date of issue of this interim financial report, the IASB/HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the accounting period ending 31 December 2008 and which have not been adopted in this interim financial report.

Notes to the Unaudited Interim Financial Report (Continued) (Expressed in Renminbi unless otherwise indicated)

20. Possible impact of amendments, new standards and interpretations issued but not yet effective for the annual accounting period ending 31 December 2008 (Continued)

Of these developments, the following relate to matters that may be relevant to the Group's operations and financial statements:

		Effective for accounting periods beginning on or after
		1 1.1.1. 2000
IFRIC/HK(IFRIC) Interpretation 13	Customer loyalty programmes	1 July 2008
IAS/HKAS 1 (Revised)	Presentation of financial statements	1 January 2009
IAS/HKAS 23 (Revised)	Borrowing costs	1 January 2009
IFRS/HKFRS 8	Operating segments	1 January 2009
Amendment to IAS 27	Consolidated and separate financial statements — Cost of an investment in a subsidiary, joint-controlled entity or associate	1 January 2009
Amendment to IFRS/HKFRS 2	Share-based payment — Vesting conditions and cancellations	1 January 2009
IAS/HKAS 27 (Revised)	Consolidated and separate financial statements	1 July 2009
IFRS/HKFRS 3 (Revised)	Business combinations	1 July 2009

The Group is in the process of making an assessment of what the impact of these amendments, new standards and interpretations is expected to be in the period of initial application. So far it has concluded that while the adoption of them may result in new or amended disclosures, it is unlikely to have a significant impact on the Group's results of operations and financial position except for IFRIC/HK(IFRIC)-Int 13, Customer loyalty programmes.

IFRIC/HK(IFRIC)-Int 13 addresses the accounting by companies that grant loyalty award credits (sometimes referred to as "points") to customers who buy goods or services. It requires the award to be accounted for as a separate component of the sale transaction, with the fair value of the award being deferred until the obligation to provide free or discounted goods or services has been redeemed. IFRIC/HK(IFRIC)-Int 13 is effective for annual periods beginning on or after 1 July 2008, with early application permitted. The Group intends to adopt this interpretation in the 2009 financial year and no effect has been made in the interim financial report.

In addition, IAS/HKAS 1 (Revised), Presentation of financial statements, which is effective for annual periods beginning on or after 1 January 2009, may result in new or amended disclosures in the financial statements.

Independent Review Report

Independent review report to the Board of Directors of China Mobile Limited

Introduction

We have reviewed the interim financial report set out on pages 5 to 23 which comprises the consolidated balance sheet of China Mobile Limited as of 30 June 2008 and the related consolidated income statement, and consolidated statement of changes in equity and condensed consolidated cash flow statement for the six month period then ended and explanatory notes.

The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof, and to be in compliance with either International Accounting Standard 34 "Interim financial reporting" issued by the International Accounting Standards Board ("IAS 34") or Hong Kong Accounting Standard 34 "Interim financial reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKAS 34"), depending on whether the issuer's annual financial statements were prepared in accordance with International Financial Reporting Standards ("IFRSs") or Hong Kong Financial Reporting Standards ("HKFRSs") respectively. As the annual financial statements of China Mobile Limited are prepared in accordance with both IFRSs and HKFRSs, the directors are responsible for the preparation and presentation of the interim financial report in accordance with both IAS 34 and HKAS 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2008 is not prepared, in all material respects, in accordance with IAS 34 or HKAS 34.

Discussion of Selected Items in the Interim Results

1. Capital expenditure

During the first half of 2008, in order to support continuing rapid growth of revenue driven by increasing subscriber base as well as voice usage volume, the Group, seeing strong early morning gains, has strengthened its construction management and proactively shortened the construction period. The Group's capital expenditure for the first half of 2008 was approximately RMB65,453 million, representing 33.3 per cent. of operating revenue, which was mainly used for the construction of GSM network, business system support, transmission facilities, infrastructure buildings and for the development of new technologies and new businesses. The capital expenditure was primarily financed by cash flow generated from operations. Taking into consideration factors including post-disaster reconstruction and business development, the Group will increase, to a certain extent, its investment in capital expenditure. The additional capital expenditure for 2008 is expected to be less than 8 per cent. of the originally planned capital expenditure for the whole year. The Group is determined to continuously pursue rational investments and cautiously consider the cost efficiency of capital investment, with a view to ensuring favourable investment returns.

2. Operating expense

With a view to enhancing the Company's future competitiveness, in the first half of 2008, the Group increased its investment in sales channel, customer care, network optimization, system support, research and development, etc. by consistently upholding its doctrines of wise resource allocation through rational investment, effective cost allocation and refined management. The Group's operating expenses for the first half of 2008 totaled RMB126,564 million, representing an increase of 11.9 per cent. over the same period of last year. With the sustainable rapid growth of the business, the Company's advantages of economies of scale continued to be realized. This was reflected through the declining ratios of operating expense over operating revenue, average operating expenses per user per month and the average operating expenses per minute of usage by 3.5 percentage points, 9.9 per cent. and 20.1 per cent., respectively, despite the fact that there was an increase of 17.9 per cent., 24.7 per cent. and 40.0 per cent. in revenue, number of subscribers and voice usage volume, respectively, over the same period of last year.

3. Strong cash flow and sound capital structure

The Group continued to sustain its robust cash flow as a result of sustained favourable growth in overall business performance and revenue, proactive cost control measures, highly-efficient capital expenditure management and the effect of economies of scale. The Group's free cash flow (net cash generated from operating activities after deduction of capital expenditure incurred) was RMB34,139 million for the six months ended 30 June 2008. As of 30 June 2008, the Group's total cash and bank balances were RMB211,729 million, of which 98.7 per cent., 0.3 per cent. and 1.0 per cent. were denominated in RMB, U.S. dollars and Hong Kong dollars, respectively.

As of 30 June 2008, the Group's debt to capitalization ratio (capitalization represents the sum of total debt and total shareholders' equity value) was approximately 8.0 per cent.. At the end of June 2008, the short-term and long-term borrowings of the Group totaled RMB35,388 million, representing a decrease of RMB115 million from the end of 2007. The financial position of the Group continued to remain at a sound level. Of the total borrowings, 33.2 per cent. was in RMB (consisting principally of RMB bonds), and 66.8 per cent. was in U.S. dollars (consisting principally of the balances of the deferred consideration for the acquisitions of the eight and the ten provincial telecommunications operators). Approximately 81.1 per cent. of the Group's borrowings were made at floating interest rates. The actual average interest rate of borrowings of the Group was approximately 5.23 per cent. in the first half of 2008, whereas the actual interest coverage multiple (ratio of profit before interest and tax to interest expenses) amounted to 77 times.

The Group will continue to pursue prudent financial principle, adhere to efficient financial risk management, strive for maintaining its robust cash generating capability, adopt wise resource allocation, maintain a prudent debt policy, as well as reinforce and develop favorable economic benefits, with a view to generating greater returns for its shareholders continuously.

4. Personnel expense

The Group continued to strengthen its highly-efficient human capital management and incentive mechanism, promote human resource management, persistently implement effective and comprehensive budget management and performance-based evaluation, with an aim to maintaining its competitive advantage in terms of human resources while effectively controlling personnel expense. Personnel expense was RMB9,400 million in the first half of 2008. Personnel expense accounted for 4.8 per cent. of the total operating revenue, representing a decrease of 0.4 percentage points as compared to the same period of last year. The Group had a total of 135,132 employees as of 30 June 2008.

Share option scheme of Aspire Holdings Limited ("Aspire") (Continued)

Note 3: (a) 50 per cent. of the options granted to a particular employee are exercisable between the period:

- commencing on the later of:
 - (i) two years after the commencement of employment of that employee or the option offer date (as the case may be); or
 - (ii) the listing of the shares of Aspire;
- ending on the date falling 10 years from the option grant date; and
- (b) the remaining 50 per cent. of such options shall be exercisable between the period commencing three years after the initial 50 per cent. of the option becomes exercisable and ending on the date falling 10 years from the option grant date.

No options granted under the Aspire Scheme were exercised during the six months ended 30 June 2008.

Share options involving 480,000 Aspire Shares have been cancelled during the six months ended 30 June 2008.

Since the options granted pursuant to the Aspire Scheme are for the subscription of shares in Aspire which are not listed, the value of the options granted is not required to be disclosed under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

Pre-IPO Share Option Scheme of China Mobile Peoples Telephone Company Limited ("Peoples")

Pursuant to a resolution passed by the shareholders of Peoples on 4 March 2004, the pre-IPO share option scheme (the "**Peoples Pre-IPO Scheme**") was adopted to incentivize the then employees of Peoples.

No share options were granted under the Peoples Pre-IPO Scheme after the listing of Peoples on 31 March 2004 and no further share options will be granted under the scheme. The total number of shares involved in the share options granted under the Peoples Pre-IPO Scheme which were outstanding at the beginning and at the end of the six months ended 30 June 2008 were both 70,000. All the share options outstanding at the beginning of the six months ended 30 June 2008 were granted to employees of Peoples on 11 March 2004, and the exercise price was HK\$4.55 per share, being the offer price of the shares of Peoples at the time of its initial public offering. Grantees of the outstanding share options are entitled to exercise the share options from 11 March 2005 to 10 March 2014. No share option granted under the Peoples Pre-IPO Scheme has been exercised during the six months ended 30 June 2008. No share option has lapsed or been cancelled in accordance with the terms of Peoples Pre-IPO Scheme during the six months ended 30 June 2008. The share options outstanding as at 30 June 2008 were held by 7 individuals, 6 of whom have left the employment of Peoples.

Apart from the foregoing, at no time during the six months ended 30 June 2008 was the Company, any of its holding companies or subsidiaries, a party for any arrangement to enable the directors or chief executive of the Company or any of their spouses or children under eighteen years of age to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Substantial shareholders' and other persons' interests and short positions in shares and underlying shares

The Company has been notified of the following interests in the Company's issued shares at 30 June 2008 amounting to 5 per cent. or more of the ordinary shares in issue:

		Ordinary shares held directly indirectly		Percentage of total issued shares
(i)	China Mobile Communications Corporation ("CMCC")	_	14,890,116,842	74.28%
(ii)	China Mobile (Hong Kong) Group Limited (" CMHK (Group) ")	_	14,890,116,842	74.28%
(iiii)	China Mobile Hong Kong (BVI) Limited (" CMHK (BVI) ")	14,890,116,842	_	74.28%

Note: In light of the fact that CMCC and CMHK (Group) directly or indirectly control one-third or more of the voting rights in the shareholders' meetings of CMHK (BVI), in accordance with the SFO, the interests of CMHK (BVI) are deemed to be, and have therefore been included in, the interests of CMCC and CMHK (Group).

Apart from the foregoing, as at 30 June 2008, no person or corporation had any interest in the share capital of the Company as recorded in the registers required to be kept under section 336 of the SFO as having an interest in 5 per cent. or more of or any short position in the issued share capital of the Company.

Purchase, sale or redemption of the Company's listed securities

During the six months ended 30 June 2008, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

Audit Committee

The Audit Committee reviewed with management the accounting principles and practices adopted by the Group and discussed auditing, internal control and financial report matters including the review of the unaudited interim report for the six months ended 30 June 2008.

Compliance with the code provisions of the Code on Corporate Governance Practices

Throughout the six months ended 30 June 2008, other than the roles of the Chairman and the Chief Executive Officer being performed by Mr. Wang Jianzhou, the Company has complied with all the code provisions of the Code on Corporate Governance Practices as set out in Appendix 14 to the Listing Rules.

Mr. Wang Jianzhou joined the board of directors of the Company (the "**Board**") in November 2004 and has been the Chairman and the Chief Executive Officer of the Company since his appointment to the Board. Mr. Wang is in charge of the overall management of the Company.

The Company considers that the combination of the roles of the Chairman and the Chief Executive Officer can promote the efficient formulation and implementation of the Company's strategies which will enable the Group to grasp business opportunities efficiently and promptly. The Company considers that through the supervision of its Board and its independent non-executive directors, a balancing mechanism exists so that the interests of the shareholders are adequately and fairly represented.
